

AN APPEAL FOR WARM CLOTHES & BLANKETS FOR THE FLOOD DISASTER VICTIMS IN KOHISTAN LOWER, KP.

An appeal is hereby made on behalf of the flood disaster affected communities living in Kohistan Lower, KP, to actors on humanitarian grounds both national and international, both organizations and individuals to join hands with us for the restoration of life in the marginalized and least developed area of the country which has been badly hit by the recent flood disaster. Together we can and together we must make a difference. IPN is a local community based organization and its team is well committed to make a difference in restoration of life in flood affected areas of lower Kohistan KP and this can be done when we pool in resources for multi sector response in the area. Those who are interested in making a contribution in any sector as detail of damages in each sector is listed in the table below, can make a contact with IPN which is already in the field.

INITIATIVE FOR PEOPLE IN NEED (IPN) LOWER KOHISTAN

Winter has already launched in the area. First snow fall, too early this year, has already been received by the upper elevations of the area. It is evident from the above given table that hundreds of people have lost their properties, shelter and the entire set of infrastructure due to the flood disaster. Indigenous Kohistani people were already marginalized and the recent disaster has put them into further backward direction. Because of the larger scale of the flood disaster in the country, the attention from both public and private sectors to this area has been very little and this past month is a witness to it.

Locals face severe problems in every walk of life after the flood disaster. Lack of warm clothes and shelter are the emerging of all of them after food security. Therefore, this appeal is hereby made to all for donation of warm **clothes, coats/jackets, sweaters, blankets, quilts** and wearing **shawls** for both men and women.

Your early and timely response in this connection will highly be acknowledged and appreciated.

Gul Muhammad
Executive Director-IPN
